

BONIDE TURBO SPREADER STICKER

TURBO Spreader-Sticker is a biodegradable, combination spreading sticking and penetrant agent designed to provide better distribution and adhesion of all types of insecticides, herbicides and fungicides (liquids or wettable powders).

TURBO helps your chemicals stick to the leaf of the plant and spread out evenly on the leaf to maximize effectiveness. By providing better distribution and adhesion of lawn & garden chemicals you can achieve greater effectiveness from your sprays and reduce leaching and product waste.

With TURBO each application has greater effectiveness allowing you to achieve control of insects and diseases faster and with fewer applications, thus reducing your usage of insecticides, herbicides and fungicides.

DIRECTIONS FOR USE

Mix 1 Tablespoon of Bonide TURBO Spreader-Sticker per gallon of prepared spray solution.
